CADDSFABRICATION

SPARKING GREATER OUTCOMES

Our capabilities

WE ARE CADDS FABRICAITON.

Combining accuracy, innovation, and design.

CADDS Fabrication are dedicated to providing the highest quality, innovative steel fabrication, that meet design and compliance standards.

DELIVERING FOR THE BIGGEST AND THE BEST.

Our shared data and streamlined management of processes allow us to deliver superior results.

CADDS Fabrication is dedicated to providing accurate, innovative and compliant steel fabrication. Designed with quality control in place, an experienced team, and superior processes, we create unparalleled benefits of our clients.

Our Group exists to provide smart and valuable solutions that improve the operational ability of our clients, across a range of industries.

With dedicated in-house teams across a number of service areas, we can support our clients in delivering efficient, holistic, and accurate solutions that exceed the requirements.

You can rest assured our operations and ability are managed and assured against our quality control systems. We focus on delivering practical solutions with innovation front of mind.

BHP Monadelphous RioTinto ROY HILL

We focus on delivering quality solutions with safety front of mind.

Workshop Area
2,500m²

Laydown Area
8,000m²

Washdown Area
Isolated 350m²

Lifting Equipment
2x 10T Gantry Cranes
1x 5T Gantry Cranes

A COMPLETE SOLUTION.

We have the expert knowledge in-house to be able to service all facets of a project.

Mining Asset Specialists

We have unmatched skills in delivering compliant, innovative, and built-for-purpose designs.

Safety Solutions

Our advanced workmanship and unrivalled experience and understanding of safety solutions.

Structural Fabrication

Our team is equipped and prepared to offer advanced and precise fabrication production services.

Mechanical Fabrication

We work across project fabrication, machining & routing, and carbon steel fabrication, to deliver results.

Design & Fabrication

Assistance in servicing the design and fabrication of critical design and construct packages.

Bespoke Fabrication Projects

We have developed innovative and intricate solutions that fulfil bespoke fabrication designs.

ACCURATELY DESIGNED, QUALITY ASSURED.

We connect our internal set of services to ensure the accuracy and quality of your project.

MINING ASSET SPECIALISTS

Projects being delivered in the mining landscape come with higher standards of quality, finish, longevity, and safety for harsh and fast-paced operations.

The team at CADDS Fabrication are highly trained in delivering on designs developed specifically for the mining industry. Our expertise has grown to be an all-encompassing service, creating a cleaner and expedited solution for our clients.

SAFETY SOLUTIONS

CADDS Fabrication team has gained unprecedented understanding and experience in supporting the specific needs of safety solutions.

Our team is connected to specialists who work across the development of safety solutions in the product design sector. Together we combine our advanced skills with our internal engineers and designers, to develop safety solutions that exceed current benchmarks in the industry.

STRUCTURAL FABRICATION

The CADDS Fabrication team is qualified and equipped to conduct accurate and appropriate welding and fabricating procedures.

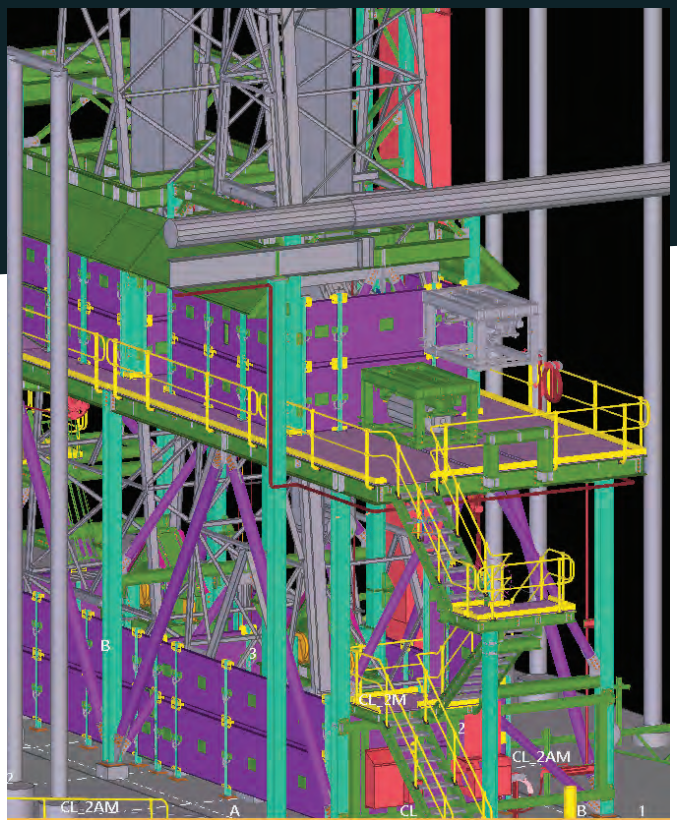
As a connected group, our internal engineering teams can support the delivery and quality required for all of our project deliverables. We have the capacity and capability to deliver precise solutions across a number of industries.

MECHANICAL FABRICATION

Our in-house capabilities are strengthened even further by combining the streamlined and integrated approach we have adopted.

By connecting directly to our internal engineering and design teams. We have a thorough and continuously expanding service offering around mechanical fabrication solutions.

DESIGN TO FABRICATION



With an integrated design and shop detailing service set, we have the skill set to deliver end-to-end design and fabricate projects.

Our Group's integrated shop detailing solution provides superior benefits for our clients by allowing us to improve upon and deliver a more efficient process for our clients and their deliverables. We remove outsourcing by continuing the entire process in-house.

BESPOKE FABRICATION

The superior craftsmanship and dedication to comprehensive solutions at CADDS Fabrication has allowed us to be leaders in bespoke fabrication.

Our team is connected to a range of in-house subject matter experts, from product design to engineering and drafting, from surveying and scanning to architectural drafting. Our combined experience and understanding fuse together to create intricate custom projects.
